Paige Andersen

Personal Brand Statement

I show girls how it's possible to have
healthy curly hair even when its
bleached and heat styled often

Background

- I'm Paige, I am a 20 year old, full-time junior at University of Massachusetts-Amherst. I am a part of Generation Z- which means I am one of the many who spends a good part of the day on social media and looks to it for help and inspiration. Like the others in my generation, I have been focusing on taking care of myself in a healthy and non-toxic way and learning to embrace my natural self. That being said, one of the things I have been focusing on lately is my curly hair.

My Hobbies

- I never knew how to take care of my curls growing up, my dad is bald and had hair too short to need to take care of it and my mom has straight hair. Both of my younger sisters also have straight hair so I am the only one in my family who had to learn how to keep my curls healthy. I started getting highlights twice a year about 5 years ago when I was a Sophomore in high school, now I am a junior in college. Before I learned how to take care of my curls I would often walk around with big, frizzy, un-tameable hair that would often be thrown into a bun or braids. Now I embrace the curls and keep them healthy (but I'm still not afraid of a straightener or curling iron)

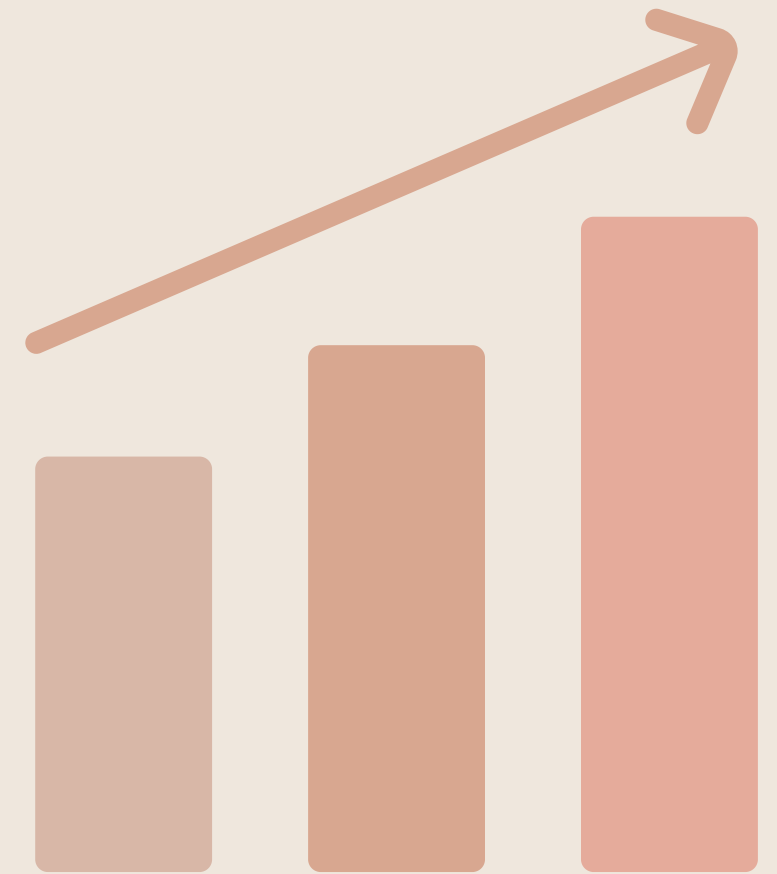

Personal Brand Goals

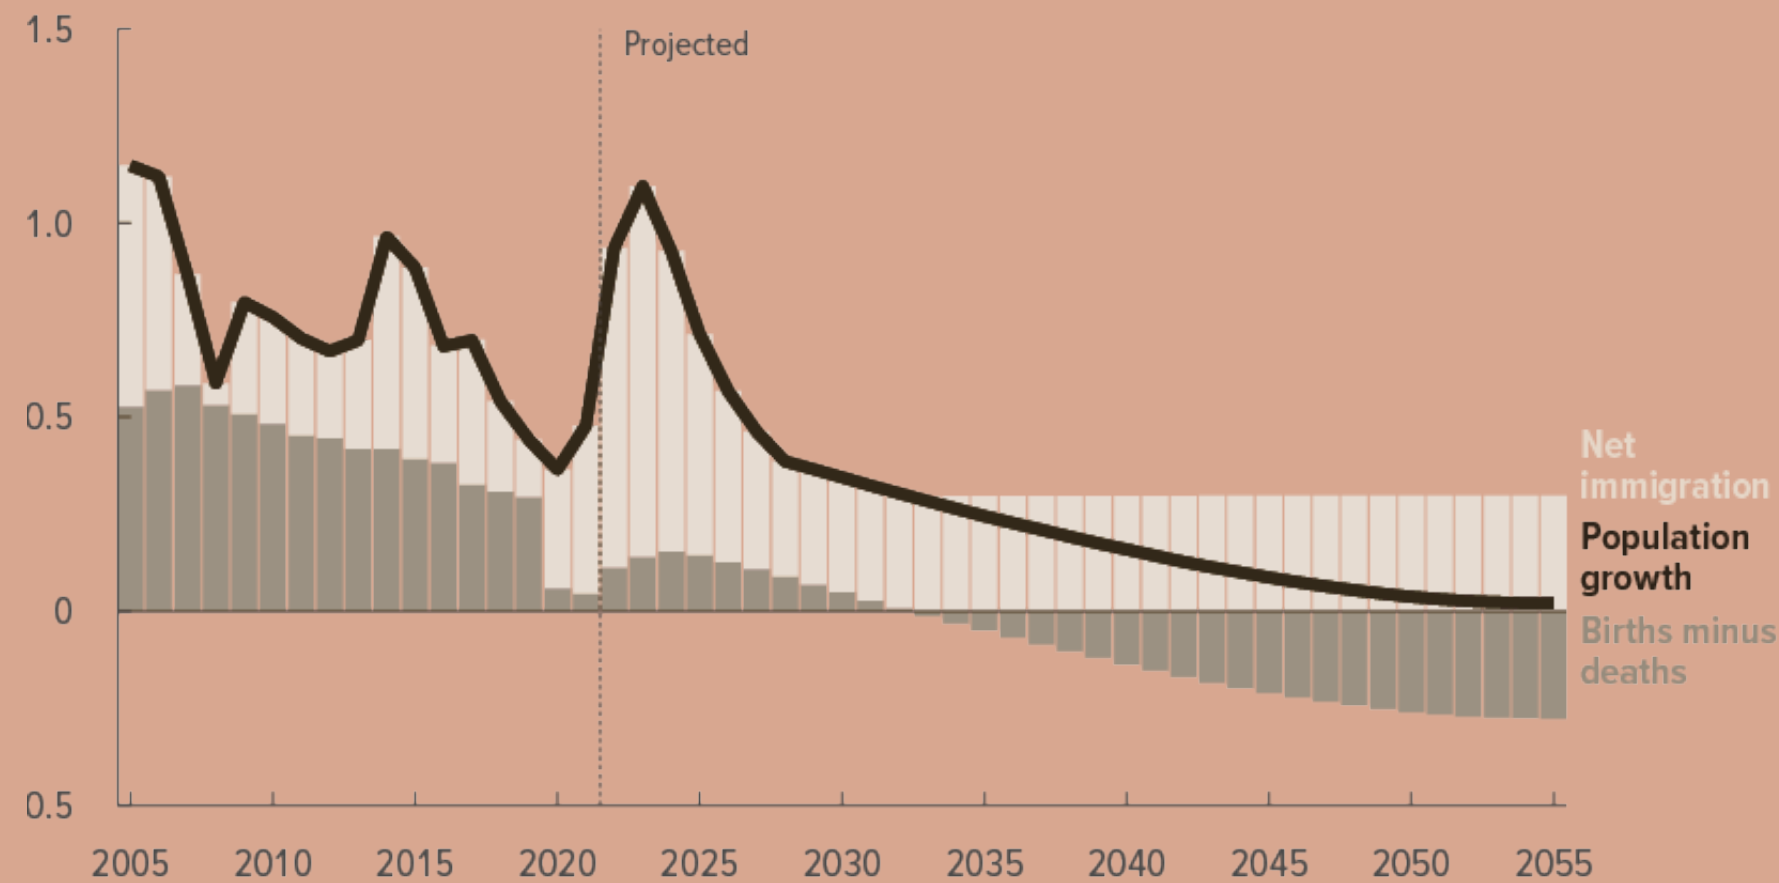

Inspire - Fearless

I want to inspire and show others who don't have anyone who has curly hair how to take care of their hair, and show them how not to be afraid of bleaching it or heat styling it without the “curly hair police” to come after them.

Macro Trends

Macro Trends

Demographics

- The number of people who are turning 65 or older is bigger than the number of babies being born. In the next 10 years, the population growth will decrease to an average of .1% every year from the average .4% now.
- The population in the next 30 years is projected to grow by 22 million people.

Competitive Analysis

Influencer	Followers and Platform	Strengths	Weaknesses	Differentiators
@Indiabatson	168k on Instagram 49.3k on TikTok	Talk about coloring her hair and how she manages it, very positive	talks a lot about pregnancy, and her marriage, more than one niche	She has multiple niches that she focuses on
@Luhhsetty	208.8k on TikTok	shows how to manage hair even with going to the gym, shows different hair styles	Has her natural Hair color, is only on TikTok	She is positive and encouraging but I would appeal more to the colored curl community.
@Beeblondor	53.4k on Instagram 2.5k on TikTok	Curly Hair specialist and offers online education	Has naturally coily hair and really only targets that hair type	She appeals to the audience with more tight coils while I appeal to an audience with a less obvious curl pattern
@Honestlizhere	148K on Instagram	Embracing her natural curls Is a hair stylist	Doesn't color her hair, is older+ older audience	I color my hair so I reach an audience that she doesn't- I also reach a younger audience

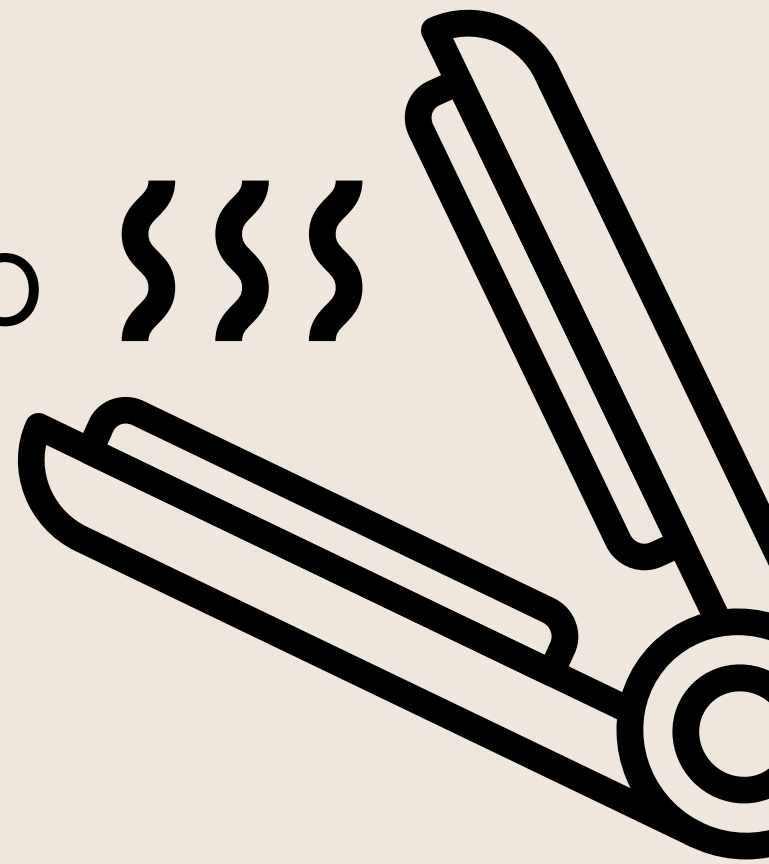

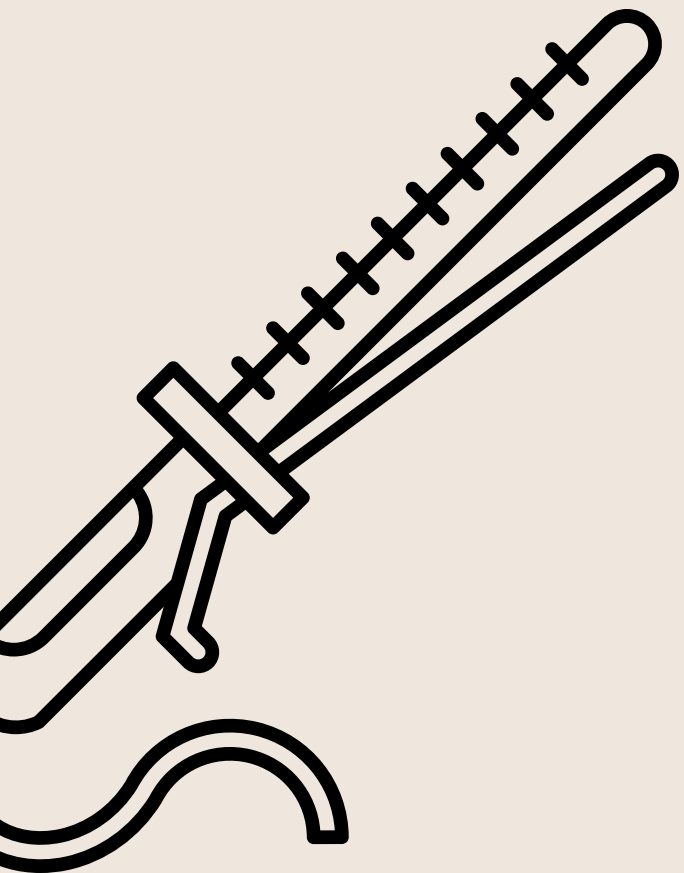

Core Values

Authentic - Positive - Silly

Three white, hand-drawn wavy lines are positioned below the text 'Authentic - Positive - Silly'. The lines are horizontal and have a slightly irregular, sketchy appearance, suggesting they were drawn with a marker or brush.

Value Proposition Statement

I help young women with curly hair to
learn how to take care of their hair
without being afraid of bleach or
heat
