## About Me

I'm a girl with curls who isn't afraid of bleach or heat styling! I used to walk around with frizzy hair and had no idea how to manage it especially since I started to get highlights routinely. Now, I help the overall health of my hair and help others find products that can make their hair routine simple, easy, healthy and doesn't take an hour to do and without hurting their wallet!

# Testimonials

"I want to show girls how it's possible to have healthy curly hair even when it's bleached and heat styled through authentic, silly, and uplifting content."-  
Paige

**Emma  
Hardie**

"I wasn't using conditioner because I thought that was making my hair greasy, Paige was the one who finally sat me down and explained in a friendly manner what a hair routine should look like and how I can improve it. She also helped me with finding products to help my wavy hair after blowing it out everyday"

"I always love talking with Paige about curly hair, we both have very curly hair and I always had stuck to my routine but Paige introduced me to other products that have made my hair look even better than it did before!"

**Valentina  
Rowe**

**Emma  
Langelier**

"Paige helped me figure out what kind of curls I have and helped me find products to help with my bleached hair and I can already start noticing a difference. Thanks to her I embrace the waves now!"
